ASHWIN LAHKAR

Full-Stack & AI/ML Developer

B.Tech CSE (AI-Driven DevOps), Jain University | Bengaluru, Karnataka | +91 77506 08944
ghoul.raider13@gmail.com | github.com/ghoulraider13-rgb | linkedin.com/in/ashwin-lahkar-08a9ab405 | npm: actis

SUMMARY

Full-stack engineer with a strong AI/ML background: deploying lightweight vision models to edge devices (YOLOv11 / ONNX / TensorRT), building privacy-preserving browser agents, and shipping AI-powered productivity tools used daily. Open-source contributor — published npm package actis and 20+ Hermes Agent skills. Smart India Hackathon 2026 participant (ISRO PS 26171, Team Sahayak).

EDUCATION

- **Jain University** — B.Tech Computer Science (AI-Driven DevOps), 2024–2028 | 5th Semester | CGPA: 9.2/10 (expected) | Bengaluru

SELECTED PROJECTS

- **FloTask** — AI-Powered Productivity Dashboard
  flotask-xi.vercel.app | github.com/ghoulraider13-rgb/FloTask
  Natural-language task parsing (Gemini / Nemotron), Pomodoro timer, enforcer-mode alarms, scratchpad draw tool, sleep & hydration trackers. Ships as web PWA plus native desktop (Tauri) and mobile (Capacitor) builds.
- **Actis** — Local-First Filesystem Activity Ledger (published npm package)
  npmjs.com/package/actis | github.com/ghoulraider13-rgb/Actis
  CLI-first ledger with local SQLite storage, debounced filesystem watcher, rule-based natural-language query parser, and a real-time Node web dashboard. Zero runtime dependencies, pure ESM.
- **Disaster Detection Drone** — Edge CV for UAV Disaster Assessment
  github.com/ghoulraider13-rgb/Disaster_DetectionDrone
  YOLOv11n models detecting flood, landslide and earthquake damage; optimized with ONNX, TensorRT and OpenVINO for Jetson-class UAV edge deployment. IEEE-style mAP/latency benchmarks; research paper in preparation.
- **Sahayak** — Privacy-Preserving Browser Agent (ISRO PS 26171)
  SIH 2026 internal build — Team Sahayak
  Chrome MV3 extension + FastAPI backend for privacy-preserving web automation. PII redaction engine achieving 1.00 recall / 1.00 precision on adversarial test suites; end-to-end encrypted local processing.
- **Evolutionary Feature Selector** — Genetic Algorithm for ML Optimization
  github.com/ghoulraider13-rgb/evolutionary_feature_selection
  GA-driven feature selection cuts the feature set by 50% while raising RandomForest accuracy from 97.1% to 99.4% on the breast-cancer dataset.
- **Hermes Agent Skills** — AI Agent Tooling & Workflow Automation
  hermes-agent.nousresearch.com/docs
  Author and maintain 20+ production skills for Hermes Agent (Nous Research): autonomous coding agents, desktop automation, web scraping/recovery, research and media tooling.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript/TypeScript, Java, C, SQL
- **AI/ML & CV:** YOLOv11 / ONNX / TensorRT / OpenVINO, Genetic Algorithms, LLM Integration (Gemini, Nemotron), NLP, EDA, scikit-learn, PyTorch
- **Web & Frontend:** React 18, Vite, Tailwind CSS, Framer Motion, Chrome MV3 Extensions, PWA, Tauri, Capacitor
- **Backend & APIs:** FastAPI, Node.js/Express, REST APIs, WebSockets, Server-Sent Events
- **DevOps & Tools:** Git/GitHub, GitHub Actions, Docker, Cloud DevOps, MLOps, Linux CLI, Jupyter, Roboflow, Google Cloud
- **Databases:** SQLite (sql.js), localStorage, IndexedDB, PostgreSQL (basics)

RELEVANT COURSEWORK

- Current (5th Sem): Cloud DevOps, MLOps, Agile Methodologies & Practices, Automation in Software Development, Advanced Artificial Intelligence, Research Methodology
- Completed: Data Structures & Algorithms, OOP, DBMS, Machine Learning

CERTIFICATIONS & ACHIEVEMENTS

- Smart India Hackathon 2026 — ISRO PS 26171 (Team Sahayak): privacy-preserving browser agent, internal-round build
- Published npm package: actis — filesystem activity ledger (CLI + web dashboard)
- Hermes Agent contributor (Nous Research) — 20+ skills for autonomous AI agent workflows
- Google Cloud Study Jam — core GCP labs (Compute, Storage, Networking, IAM, Monitoring)
- Coursera — Operating Systems (3 courses), Data Structures in C, Python Crash Course
